Executive for A & M
Tura: Assistant Director for Operations
Chief, FBIB

27 September 1948

Request for Travel Order for Chief Engineer, FBIB to visit FBIB
West Coast Bureau, Reseda, California

1. It is desirable that Chief Engineer, FBIB perform temporary duty at the FBIB West Coast Bureau in the near future for the following reasons.

25X1

a. To inspect the completed station at Reseda, California in order to gain experience and knowledge for use in the construction of other new FBIB stations whose construction is soon to be initiated.

b. To review and discuss with the Engineer in charge of construction for the Okinawa station, the plans for that station prior to this Engineer's departure for Okinawa.

c. To instruct the Engineer who is to be in charge of the Okinawa project in the use and maintenance of new model Dictaphone recorders and transcribers in order that this Engineer may pass on this instruction to FBIB personnel in Tokyo as well as the new station on Okinawa when it is activated.

d. To instruct personnel at the Reseda station in the use of new model Dictaphone recorders and transcribers.
